TECHNICAL BULLETIN

Document number: T0043

For further technical information regarding testing, repairs or to search for New or Remanufactured Automotive electronic products, please visit www.injectronics.com.au, call our office on (+613) 8792 6999, or email sales@injectronics.com.au

Make: BMW

Model: BMW E32 7 series / E34 5 series up to 1989

Subject: Dash cluster display

To change display languages on BMW E32 – 7 Series and E34 – 5 Series dash cluster up to 1989, the following needs to be done

1. Turn key to accessory position only
2. Hold in menu button (located on left hand side of dash) for approx. 10 seconds, until a language version is displayed
3. If the one displayed is not the one required, release button and then depress again for approx. 10 seconds until the next language is displayed.
4. Continue this until correct language is displayed and then turn off key.

Injectronics provides an exchange back board for these models, common problems include:

- Chime continually sounding
- No fuel, temp or tacho gauges
- Chime sounding when applying brakes
